

I am the Managing Director of IKON GLOBAL MARKETS, Inc., the Futures Commission Merchant where you have recently opened your account. I am writing to you because I want to ensure that you understand the nature of the transactions you plan on entering into.

As a clearing firm, it is part of our standard procedure to review all account opening documents for accuracy and consistency. Your account application was brought to my attention for the following reasons:

- If you have no forex or options experience.
- If you are under the age of 21 or over the age of 65
- If you are retired
- Your risk capital is greater than 15% of your combined net worth. *Risk capital is defined as: the amount of capital, if lost that would not change your lifestyle and/or funds that you do not need to meet your current or long-term financial requirements. This includes the initial deposit to open this account.*

Given the above items, we felt it prudent to contact you to ensure that you understood the nature of the investments you were about to undertake. Foreign exchange trading involves a high degree of leverage and may not be suitable for all persons.

I would like to ask you to please consider your financial objectives and relate that to the information you have presented to us. If my concern is not warranted, then please reply back and confirm that you understand the nature of the risks involved in our product offering. I certainly appreciate the time and I thank you for your consideration. If you have any questions, feel free to contact us.

Regards,

Diwakar Jagannath
